

PROBLEM SOLVING TREE

Name:

Introduction: 100K Ideas follows a simple model: Think, Make, Market. To be able to work on the Think part, we must first find a problem to solve.

Objectives: Our job today is to find a problem you may face everyday. (i.e. trouble tying your shoe laces, waking up on-time, or cleaning your room).

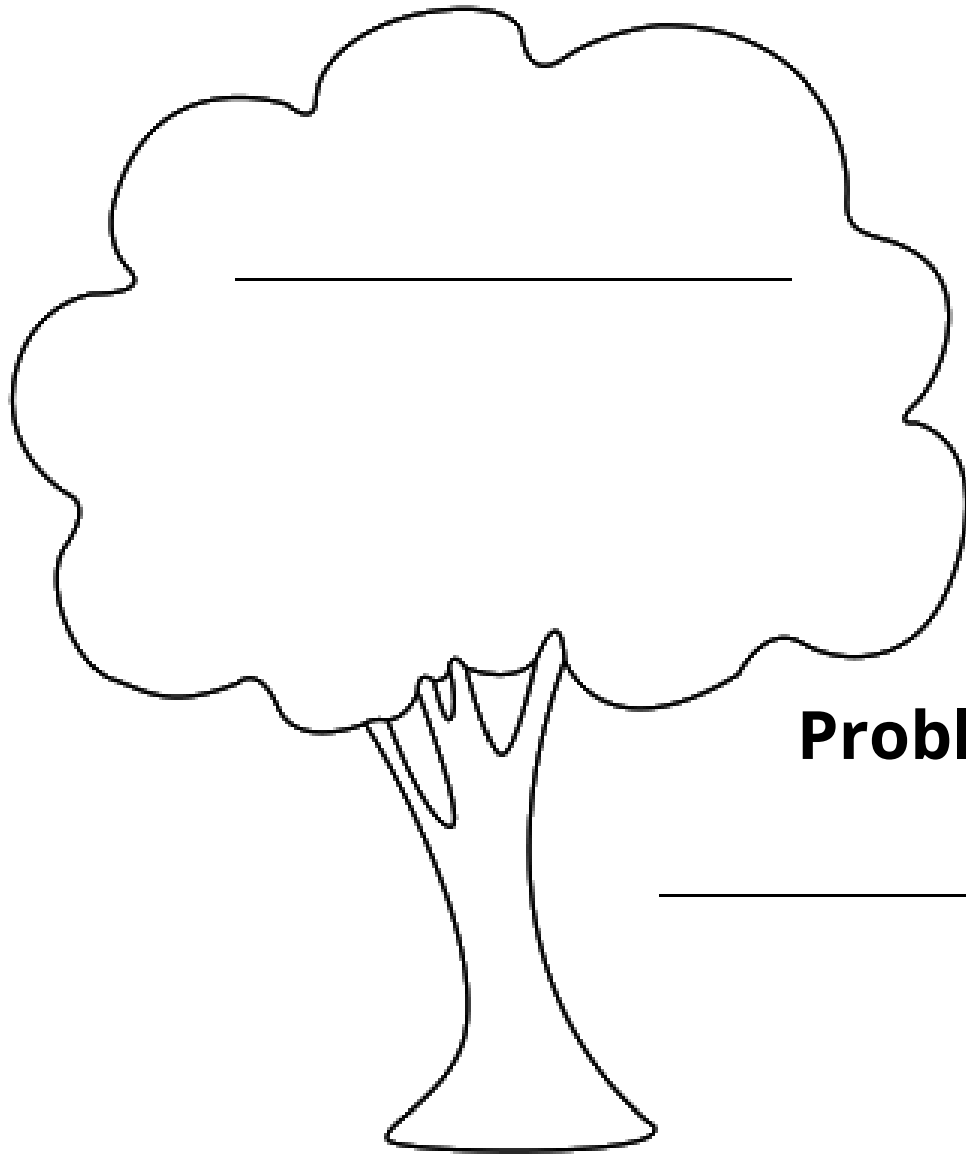

Instructions: Use the Problem Solving Tree below:

- Find (1) Problem
- Name or draw some of the Causes of the problem
- Come up with some possible Solutions, they can write or draw it out.

Takeaways: Students identifying problems in their daily lives and community. Students will think more critically about the world around them. Most of all students will feel more empowered to propose solutions to the problems they have discovered.
